Niagara County

*Cornell Cooperative Extension in Niagara County is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities. Please contact our office if you have any special needs.*

The Official Guide to  
Joining.....

## Who can be in 4-H?

Cloverbuds are ages 5-8 (as of January 1 of the current year) and in Kindergarten through grade 2.

4-H members are ages 8-18 and in at least third grade (as of January 1 of the current year).

## What is a 4-H Club?

Five or more children along with their parents and/or other volunteer adults form a 4-H club.

Parents and/or other adults teach projects that club members choose at club meetings, usually held once a month.

## 4-H Individual Members

Individual members are 4-H members or Cloverbuds that do not have a club affiliation. They work on projects of their choice at their own pace, with parental or adult assistance.

## What are the perks of 4-H?

4-H allows youth to have fun, meet new people, build self-confidence, learn life skills, gain responsibility, and set and achieve goals!

Youth learn by doing and can display their projects at the Niagara County Fair each year. 4-H has endless possibilities for projects to choose from. You'll never be bored in 4-H!

## How much does being in 4-H cost?

Yearly enrollment fee is \$10 per child (family maximum of \$30), 4-H'ers re-enrolling must enroll before November 30.

No participation fee for leaders (or adult volunteers).

## How much time is required?

Whatever you choose for your child. A 4-H club is something you do with your child. Parents play an active role as project leaders.

Clubs generally meet once a month for about two hours each meeting. Children who want a broader experience can opt to be involved in a county wide program.
